

SuiteMed's™ IMS™ v12 Awarded 5-Star ranking by #1 EMR Evaluation Experts - The AC Group

Industry leaders, the AC Group, have released their latest rankings for EMR/EHR software, practice management applications, and vendors in terms of company viability.

FOR IMMEDIATE RELEASE

PRLog (Press Release) – Aug 30, 2010 – Industry leaders, the AC Group, have released their latest rankings for EMR/EHR software, practice management applications, and vendors in terms of company viability. In this unparalleled report titled, "Extensive Evaluations Rank Top Practice Management and EHR Applications," 175 vendors were evaluated by the AC Group on a range of in-depth criteria. SuiteMed's IMS was rated 5 out of 5 stars when evaluated. Only 12 of the other 175 vendors received this rating; many of which focus primarily on hospitals or very large practices.

The AC Group scored SuiteMed IMS v12 a 5-star average in the following areas:

- Practice Management functionality
- EMR/EHR functionality
- Ease-of-Use
- Company Viability
- End-User Satisfaction

The AC Group is at the forefront of EMR/EHR/practice management solution evaluations and rankings, with CEO Mark Anderson having spoken at over 400 related conferences and events just since the year 2000. Anderson has spent the last 34 years focusing on healthcare including technology questions, strategic, policy, and organizational considerations. The AC Group remains unbiased and tracks industry trends, conducts member surveys and case studies, assesses best practices, and performs benchmarking studies.
